

Reference Letter for Magan Messana

To Whom It May Concern,

It is a true honor to write this letter of recommendation for **Magan Messana** and her business, **M2 Consulting**. As the Program Director at Ripple of One, I have had the privilege of working closely with Magan for years, and our relationship has grown into one of deep mutual respect and trust.

Magan's journey with Ripple of One is a powerful testament to her character. She first walked through our doors as a participant, eventually joined our staff as an employee, and now serves as one of our most valued consultants. Because she has stood in the shoes of the families we serve, she brings an authentic, heart-led perspective to everything she does. She isn't just "recruiting"—she is building a community of support for families who are working to change their lives.

In her work with M2 Consulting, Magan covers a wide territory, including **Oconee, Anderson, Greenville, and Pickens Counties**. She is instrumental in finding the families who need our program most, as well as the volunteers who make our mission possible. Whether she is finding mentors and financial coaches for our parents or recruiting help for the office and events, she has a gift for matching the right person to the right role.

What sets Magan apart is her dedication to people after the initial connection is made. She doesn't just recruit volunteers and walk away; she provides ongoing support to keep them energized and engaged in their roles. She knows that our volunteers are the backbone of our support system for parents and children, and she treats those relationships with the care they deserve.

Magan is also a powerhouse when it comes to community growth. She recruits community partners to provide essential resources and dual-enrollment opportunities, creating a "feeder system" that ensures families have a clear path into our program. During our fundraiser season, her personal touch and local connections are invaluable as she secures sponsorships to keep our work going.

On a personal note, Magan is one of the most resilient and compassionate people I know. Having watched her go from a participant to a professional consultant, I can say with certainty that she brings a level of integrity and "boots on the ground" wisdom that you simply cannot teach. She is a dear friend and a vital part of our mission to help families thrive.

I recommend Magan Messana and M2 Consulting without reservation. I know she will bring this same passion and dedication to every project she touches.

Please feel free to contact me directly if you would like to discuss Magan's work further.

Sincerely,

Dreama Clay

Program Director, Ripple of One
